

# Heat Smart Workshop

## Just getting started

### My Priorities:

- Save Money
- Reduce Carbon Emissions
- Healthier Indoor Air Quality
- Eliminate Fossil Fuels from Home
- Other \_\_\_\_\_

### For Heating I have:

- Furnace
- Boiler
- ☆ Electric Heat Pump

### For Heating I have:

- Oil
- Gas
- Propane
- Electric baseboard
- Wood

### For Air Conditioning I have:

- Window Units
- Central
- ☆ None

My heating system is \_\_\_\_\_ years old.

### My Electric Plan is:

- Lincoln Basic
- Lincoln Standard Green
- ☆ Lincoln 100% Green
- ☆ Community Solar
- ☆ I have Solar PV

Will my home be a good fit for solar panels?

- I have a roof with good solar exposure and little tree shading
- I have a simple roof line with a large area for panels

My roof is \_\_\_\_\_ years old.

### For Hot Water I have:

- Oil
- Natural Gas
- Propane
- Electric
- ☆ Electric heat pump
- ☆ Solar

My Hot Water Heater is \_\_\_\_\_ years old.

### My Hot Water Heater is located in a:

- Closet
- Unfinished Basement
- Finished Basement

### My House has Insulation in the:

- Ductwork
- Attic Floor
- Attic Ceiling
- Walls
- Rim Joists

My Attic is Air Sealed **Y / N**

### My Basement is:

- Finished
- Unfinished

### My Foundation is:

- Fieldstone

- Concrete
- Other \_\_\_\_\_

**My Windows are:**

- Single pane
- Double pane
- ☆ Triple pane

**My Windows are \_\_\_\_ years old.**

**My House is \_\_\_\_\_ years old.**

**My Appliances:**

- My fridge is \_\_\_\_ years old.**
- I have a second fridge or freezer
- ☆ Electric Stove
- Gas Stove
- Propane Stove
- ☆ Induction Stove
- I have young children at home
- I have a pacemaker
- ☆ Front Load Washer
- ☆ Heat Pump Dryer
- ☆ Energy Star Appliances
- ☆ Electric Car
- ☆ Electric Lawn equipment

- ☆ I wash clothes with cold water
- ☆ I hang my clothes to dry
- ☆ I put on a sweater before turning up the thermostat in the winter
- ☆ I have a glass of ice water before tuning down the air conditioner in the summer
- ☆ I use shades to help keep my house cool in the summer and warmer in the winter
- ☆ I look for ways to reduce my single-use plastic consumption
- ☆ I have a kilowatt meter (or borrow it from the library) to measure my electricity use for appliances
- ☆ I vote for people that support climate-conscious legislation
- ☆ I minimize driving and combine errands.
- ☆ I drive defensively, not accelerating unnecessarily and speeding.
- ☆ I compost my food waste
- ☆ I use water mindfully and avoid watering the garden during peak solar hours

**My Lifestyle:**

*These lifestyle choices can reduce your overall carbon footprint significantly. We encourage you to consider making these choices when it works for you.*

- ☆ I choose to fly less
- ☆ I choose not to fly
- ☆ I choose to eat less meat
- ☆ I choose to be vegan
- ☆ I buy clothes I plan to wear at least 10 times
